See my paper on "Theory of Wished Thing"!

(just after identical? 1958? (see Danielson, Supp
(Handwritten paper: 1960?)

emphasis "wished" (desire) from anxiety
and high importance

But what is wished? Consequently
(non-Robinson Crusoe!) "worse" (not every case,
intentions) may be be "better" — for one's
agency's budget & role!

see Cholabi, OSP, etc. (!)

etc.

What is "worst case" — is which direction?

Can you admit what is "worst," what "best"?

What I feared from SU \approx Hth in
30's

(plus poss. of descent attack
and/or of preemptive attack...

was seen and exploited by US, with its
real superiority

Yuri Andropov offered the negotiators:

R HQO committed himself, to "defense"
of Cuba
- deployed forces
- deployed.

like
"D. & S. ..."

but he didn't tell US

and US didn't believe it -

and morale threats, to which

ON US was unconsciously committed...

that he is not operational!)

as advised in 1963 [What was JCS saying in 1962-63?]

In March '59,
I was worried that K might be
tempted to use our blackmail
on Berlin [Rus - Quesing?]

What was my advice?

see JFK!

I disturbed Dulles, and his
brinkmanship. (threats of
EU: Massive retaliation)

New Look

"main but not sole..."

I opposed EU threats,

but - fearing SU/C? blackmail -
(K + spies: K and

I was a hawk (non-over) on Berlin
(Adams + ANW)

and on Cuba! (Turkey; Dollar...)
Kotzebue

and I felt C-I had invited C-II
(so, I feared effects of a defeat
in VN)

I facilitated EU/FS threats in an Cuban
speech ('62: Cuba!) and Hilpatre (Cuba)

The greatest danger to US (& world)
security has always been the US nuclear
weapons programs. (Second: the effect on SU, and
intention of SU; 3 - on others)

Threat has always been from inside

- to prevent that
external
- for security
